Projects

TourWeave – Collaborative Travel Planning Platform

Full Stack Project

Dec. 2025 – Mar. 2026

React.js, JavaScript, Supabase, PostgreSQL, EmailJS

- Built a full-stack collaborative travel planning platform enabling users to create trips, manage itineraries, and invite members through secure email invitations.
- Integrated Supabase Authentication, PostgreSQL, and EmailJS to implement user authentication, trip management, and invitation workflows.
- Designed responsive React components with reusable architecture, improving UI consistency and application maintainability.
- Implemented CRUD operations for trips and itineraries while ensuring seamless frontend-backend communication through RESTful services.

TaskFlow – Task Management System

Java Full Stack Web Application

June 2025 – Sept. 2025

Java, Spring Boot, Spring Security, Hibernate, React.js, PostgreSQL, JWT

- Developed a full-stack task management application supporting project creation, task assignment, status tracking, and deadline management.
- Built secure REST APIs using Spring Boot and implemented JWT-based authentication with Spring Security for protected access.
- Integrated Hibernate ORM with MySQL to perform efficient CRUD operations and maintain normalized relational data.
- Created responsive React dashboards for project and task management, improving usability and user experience.

Flare – Grocery Shopping Platform

E-commerce Web Application

Sept. 2024 – Dec. 2024

React.js, JavaScript, Firebase, HTML5, CSS3

- Developed a responsive grocery shopping platform featuring secure user authentication, product browsing, shopping cart, and order-ready user flows.
- Integrated Firebase Authentication and Firestore to manage users, products, search functionality, category-based filtering, and persistent application data.
- Built reusable React components to improve maintainability while implementing chatbot and feedback modules to enhance customer engagement.
- Optimized the user interface for responsiveness and faster navigation across desktop and mobile devices.
