Summary

Java Full Stack Developer skilled in Java, Spring Boot, React.js, SQL, REST APIs, and Data Structures. Passionate about building scalable web applications with clean architecture, secure backend systems, and responsive user interfaces.

Education

Vellore Institute of Technology, Bhopal

Bachelor of Technology in Computer Science and Engineering

Sept. 2023 – May 2027

CGPA: 8.97/10

Maharishi Vidya Mandir School

Class XII – 89%

Apr. 2021 – May 2023

Gurucharan Kaur Public School

Class X – 83.6%

Apr. 2009 – Apr. 2021

Technical Skills

Languages: Java, JavaScript, SQL, HTML5, CSS3

Frameworks: Spring Boot, Spring MVC, Spring Security, Hibernate, JDBC, Java Servlets, React.js, REST APIs

Databases: MySQL, Firebase Firestore, Supabase

Projects

HireHub – Job Portal Platform

May 2026 – July 2026

Java Full Stack Web Application

Java, Spring Boot, Spring Security, Hibernate, React.js, MySQL, JWT

- **The Story:** Job seekers and recruiters often rely on multiple platforms for hiring and applications. HireHub streamlines the recruitment process by providing a centralized platform for job posting, applications, and candidate management.
- **Hard Problem:** Designed a secure role-based authentication and authorization system using Spring Security and JWT, enabling controlled access for Candidates, Recruiters, and Admins while protecting REST APIs.
- Developed a full-stack job portal supporting recruiter job postings, candidate profiles, resume uploads, job applications, and application status tracking.
- Implemented secure REST APIs with Spring Boot, Hibernate, and MySQL, featuring CRUD operations, file uploads, search, filtering, and pagination.
- Built responsive React dashboards for Candidates, Recruiters, and Admins with role-specific workflows, analytics, and an improved user experience.

TaskFlow – Task Management System

April 2026 – May 2026

Java Full Stack Web Application

Java, Spring Boot, Spring Security, Hibernate, React.js, PostgreSQL, JWT

- **The Story:** Teams often rely on spreadsheets and chat applications to manage work. TaskFlow centralizes project planning, task assignment, and progress tracking into a single platform.
- **Hard Problem:** Designed secure JWT-based authentication with Spring Security while implementing efficient relational data management using Hibernate ORM.
- Developed a full-stack task management application supporting project creation, task assignment, status tracking, and deadline management.
- Built secure REST APIs using Spring Boot with role-based authorization and CRUD operations.
- Created responsive React dashboards to improve project visibility and user experience.

TourWeave – Collaborative Travel Planning Platform

Dec. 2025 – Mar. 2026

Full Stack Project

React.js, JavaScript, Supabase, PostgreSQL, EmailJS

- **The Story:** Planning group trips usually involves multiple apps and scattered conversations. TourWeave brings itinerary planning and collaboration into one platform.
- **Hard Problem:** Managed shared trip data with secure authentication and synchronized collaborative updates across multiple users.
- Built a collaborative travel planning platform with trip creation, itinerary management, and member invitations.
- Integrated Supabase Authentication, PostgreSQL, and EmailJS for secure user management and invitation workflows.
- Implemented responsive React components and CRUD functionality for seamless frontend-backend interaction.

Leadership Experience

BitByBit Club, VIT Bhopal

Dec. 2025 – Mar. 2026

General Secretary

Bhopal, Madhya Pradesh

- Led cross-functional teams to organize workshops, hackathons, coding competitions, and recruitment drives.
- Managed planning, task delegation, and execution of multiple technical and non-technical events.
- Coordinated communication between leadership and members, ensuring smooth collaboration across teams.

Certifications

- ServiceNow Virtual Internship Program
- Deloitte Technology Job Simulation
- NPTEL – Introduction to Machine Learning
